

The Glades And Its Affairs

Two new dwelling houses have been built between Palmdale and Lake Annie.

Some teachers have been selected for the Glades county high school but the place of principal is still vacant.

The Lake Shore Supply Company is remodeling and enlarging the Herring & Hawkins packing house at South Bay.

County prisoners are being used to cut the weeds and grass on the grounds of the Glades county court house at South Bay.

Australian plants that were set out on state road No. 25 by the Cleveiston post of the American Legion are growing fine.

"Punch" Stewart has returned after a tour of the Panama Canal.

Five thousand dollars is estimated to be the loss of the boat "John" which was destroyed by fire of its electric light plant.

Alan Dowd, who worked with his brother John at the store at Moore Haven, has returned to Arcadia and taken over the management of the filling station near the A. C. L. depot.

Tom McBride of Moore Haven has a hatch of beans up. Tom was a longshoreman at the Glades county in the early days and is about the only man of the old school that is still there.

The South Florida conveyance district has just finished building a bridge across the road canal at the curve in the highway between South Bay and Belle Glade.

Cattle tick inspectors left glades county to Martin and Palm Beach counties on roads around Lake Ocheechee but they do expect to bring in plants or shrubs or moss.

Instead of transporting pupils from Liberty Point to Benbow Park school a contract has been made to be employed for classes in a building that the sugar company has built.

The water in the pool at Brighton looks blue, like ocean water, but as the water is pumped from a well nearby, the color of the pool probably is due to the color of the sides and bottom of the pool have been painted.

A drainage stake on the lake front just before you get to Cleveiston looks lonesome to motorists who saw it Sunday. Probably it looks more like it once it is on week-days when men are working around it.

Quite a few persons are putting out seedlings of the water hyacinth, peppers and eggplants, the Ocheechee paper says, adding that beans do not seem to be doing well among the farmers in this section.

The big trucks that are seen on the Palmdale road between Maina and Lake Annie are the trucks of the Lykes Brothers of Tampa and are used to haul cattle from Glades and DeSoto counties to the abattoir at Tampa.

The breeding pens at the tin hatchery on Conners highway have no water in them, but that doesn't mean anything for this isn't the time of year when water is needed. Water is pumped in from the lake when it is needed.

Summer seeds did not spread and became a nuisance after they were used as windbreaks, as some women feared they would. On White & Maina's land between South Bay and Lake Harbor there isn't a sign of summer seeds.

The Everglades News would be glad to have a good article from a respondent at Lake Harbor, which has been a post office and is getting to be a town. The News would like to have a letter to get together and send a correspondent.

The grocery department of the Parkmore store at Moore Haven has been remodelled and enlarged. Mr. Medina, one of the salesmen, was the manager of the Florida Power & Light Company's Palm Beach plant when the plant was installed, back before the '28 hurricane.

Every time a sample of water from Lake Ocheechee is sent to the state board of health, after the water has been treated, the report is made to the board.

K. K. Schuchert was made last week on water sent from the Ocheechee plant, the same kind of a report George Knapley and Bert Power got on samples sent from Canal Point and Pahokee.

WIND MILL GHOST MILL. D. B. Bennett has set up a windmill on a hill near the J. H. Wynn lot in South Bay and is prepared to grind corn for feed.

WORKING MEN'S WAGES CUT TO BUILD UP FUND TO PAY ELLIOT AND YOUNG

The reduction in the pay roll of the Everglades district made by the drainage board at the August meeting met the approval of Chief Engineer F. C. Elliot of Tallahassee and Assistant Engineer Glenn V. Scott of West Palm Beach.

The only new fact brought out is that the financing problems of the drainage district had not been settled and that everybody is in doubt as to what the law is respecting the drainage project. Court decisions that the district should have obtained two years ago still have not been made.

The committee understands that the changes recommended in the pay roll at Tallahassee would be agreeable to our chief drainage engineer and that the salary paid by the district would be equalled by the Trustees of the Internal Improvement Fund.

If the \$200 a month paid to Chief Engineer F. C. Elliot by the drainage district is to be reduced to \$150 a month, the salary paid by the district would be equalled by the Trustees of the Internal Improvement Fund.

The drainage board hurried into the meeting to discuss the matter.

RORICK LETTER IN HERALD NOT NEWS

A letter sent out by the Everglades district bondholders' committee was printed under a headline on the first page of the Miami Herald, but it was not a news item.

The letter was written by H. C. Rorick to the editor of The Everglades News and printed in this paper several months ago.

The only new fact brought out is that the financing problems of the drainage district had not been settled and that everybody is in doubt as to what the law is respecting the drainage project.

Court decisions that the district should have obtained two years ago still have not been made.

The committee understands that the changes recommended in the pay roll at Tallahassee would be agreeable to our chief drainage engineer and that the salary paid by the district would be equalled by the Trustees of the Internal Improvement Fund.

If the \$200 a month paid to Chief Engineer F. C. Elliot by the drainage district is to be reduced to \$150 a month, the salary paid by the district would be equalled by the Trustees of the Internal Improvement Fund.

BOND HOLDERS MAKE DEMAND IN NEW FUND FILED IN FEDERAL COURT

A committee of Everglades drainage district bondholders headed by H. C. Rorick, Walter H. Lipnietz and J. E. Easton has filed a supplemental bill in the federal court of the north Florida district.

The bill is against the I. F. board and the drainage board, and the line of argument in the bill indicates a refusal to pay the bonds unless a refund is made.

The bill also asks for a determination to press for the appointment of a receiver for the drainage district.

The bill also asks for a determination to press for the appointment of a receiver for the drainage district.

CLAIM OF ECONOMY HAS CATCH IN IT

The claim made by the drainage board that it has reduced expenses is not a honest claim.

It has retained F. C. Elliot of Tallahassee as chief engineer and Mr. Elliot has not yet got much salary as before.

In paying out an account it has merely made a job for a different accountant, for the accounting will have to be done.

It reduced the salary of W. I. Evans, attorney, who gets an other salary from the Ocheechee food control district.

This reduction was required by an act of the legislature, and was accepted by the drainage board.

The other cuts in salary were made to create a fund out of which to pay a salary to State Engineer W. V. Young.

EXPRESS PLATFORM TO BE ENLARGED

The American Railways Express Company is to improve its facilities at Canal Point.

W. H. Reddick, agent, announced that the plans and specifications have not been seen here but it is understood that the track will be made straight in shape and enlarged and that the shed will be enlarged at the present location.

This evidently is intended to meet the complaints of buyers and shippers and offset the inroads the trucks have made in the express business.

FARM MEET FOR SEPT. 2 AT PAHOKEE

County Agents Outline Plans and Subjects of Experts' Talks.

County Agent M. U. Mounts announced in a letter to The Everglades News that Wednesday, Sept. 2, has been set as the date and Pahokee as the place of the annual Farmers' Home Demonstration Meeting in the Ever

GIVES HISTORY OF MANGANESE SULFATE

A booklet under the title "Manganese Sulfate, Its Use, and Application in Agriculture," by C. A. Mazzuchelli, has been issued by the Carus Chemical Company, Inc., of La Salle, Ill. The booklet is an advertisement for the chemical company but it is no less interesting and valuable on that account.

Use of manganese saved the green bean industry in the Everglades for a few years. The "yellowing" of beans was caused by heavy losses were caused. The booklet relates that as far back as 1854 it was proved that plants assimilate manganese from the soil, and from 1907 to 1912 the United States Department of Agriculture carried on studies on the action of manganese under acid and neutral soil conditions, issuing a bulletin on the subject in 1916. In the winters of 1921-2 and 1924-5, fertilizer experiments were made in Dade county to determine the relation between fertilizer and milled run in tomatoes, and out of these experiments came the practice of using manganese sulfate.

About the same time, manganese sulfate was used on the Florida Island experiment station and the results corresponded with those of the Kentucky station. Dr. Allison of the Everglades experiment station near Belle Glade made application of the facts that had been learned and communicated the information to growers in the Lake region.

Persons interested can no doubt get copies of the booklet by asking the Carus Chemical Company at La Salle, Ill.

PREVENT DISEASES OF TRUCKS BY DISINFECTION

GAINESVILLE, Fla., 17.—Infecting truck stop just before they are planted will prevent many seed-borne diseases from developing on the seedlings, according to Dr. G. F. Weber, associate plant pathologist at the Florida experiment station.

The best disinfectant to use is a 1-1,000 solution of formalin. Dip the seedlings in the solution for 15 minutes. Treatments for cabbage, cauliflower, kohlrabi, nasturtium, rutabagas, and rutabagas, mustard, radishes, turnips, cabbages, cucumbers, gourds and watermelons, and 8 minutes for tomatoes, peppers and eggplants. While the seed is being treated they should be stirred constantly. Old newspapers make a safe convenient place on which to dry them. When dry they are ready to plant. Such diseases as angular leaf spot, anthracnose, blackrot and bacterial blight are prevented by the treatment.

Corrosive substance is a deadly poison, and should be handled carefully.

CANAL POINT

J. W. Strickland, employee of the U. S. sugar cane breeding station returned Monday from a vacation trip with his wife through the northern and middle parts of the state. He said farm work was starting, early beds being made for Sanford and strawberry plants being set at Plant City. Groves looked good. He said the weather was "just what we needed."

Louis G. Freeman, who owns section 8 between Belle Glade and Pahokee, is in Michigan taking treatment for high blood pressure. His home is in Cincinnati, Ohio, but he spends a good deal of his time in Palm Beach county, where the owner of real estate.

Mr. and Mrs. T. C. Brackett, who farmed at Canal Point several years, have left Daytona Beach and are on their way back to Oregon, where they expect to locate. A letter dated at Wichita, Kansas, August 6, said they had just arrived there and were continuing their journey in the Pacific Northwest. Mr. Brackett, a son of the late Mr. H. L. Douglas of Belle Glade, was in Canal Point Tuesday to have work done on plowing equipment at Shadforth's garage. He has started work on the 140 acres of the A. H. Ottwell land on Pahokee road north of Belle Glade.

COMMUNITY GOSSIP

A resident of the Glades observes: "Bernhard's drainage ditch used to be a political football, now it's a tennis ball." This was progress.

If you haven't been able to get some stations on your radio receiving net that you used to get, you ought to have one. In some few cases the set and in some few cases the something. In this newspaper office it was found that it wasn't the station or the humidity but a weakened transformer that limited the range of the set to the official stations. Oft what charge you for what he does but it will be worth the price.

When L. L. Stuckey and family and Thurmond Knight and party get back to East Beach they will exchange notes on Pike's Peak in Florida, for all of them have been there. The Stuckey family were there several weeks ago, and the Pike's Peak Daily News of August 8 has as visitors W. Knight, Floyd A. Erickson, William Erickson and Ray L. Hawk, all of Canal Point, and Thurmond W. Knight of Pahokee. They drove their own car to the top of the peak.

NEWS FROM AROUND THE BIG LAKE

SOUTH BAY

F. M. Shaughnessy of Tampa was a business caller in South Bay on Friday.

Betty Rawlin, daughter of Mr. and Mrs. H. W. Rawlin, was operated upon for the removal of her tonsils on Thursday and is getting along nicely.

Mrs. J. R. Hoch and daughter Wade made a business trip to Miami on Monday.

Mr. and Mrs. Larry L. Hardy are spending a few days in South Bay visiting relatives and friends. Joe Lockmiller went to Punta Gorda on business recently and brought back Mr. and Mrs. B. J. Brooke and daughter Wanda Lee. Miss Lee Jackson has returned to South Bay from a visit in North Carolina.

Mr. and Mrs. York of Pahokee were callers in South Bay on Wednesday.

Mr. and Mrs. C. M. Larrick made a business trip to Hicoria on Monday and motored on around the lake.

Richard and Bert Morris of Lake Harbor spent Monday in West Palm Beach attending to business and visiting with relatives.

Mrs. Hope, sister of Mrs. C. W. Grogan and well known in this vicinity, was the victim with her husband of an auto accident in Washington, D. C., recently. One of the tires blew out causing the car to turn over, injuring both Mr. and Mrs. Hope seriously.

Mr. and Mrs. Ferman, Grace and Beatrice, Mary Denton and

Charles, accompanied by Mr. and Mrs. John Mathis of Sherman, Texas, and William Poe of Dallas, Texas, have just returned from an extended vacation in Texas. They will all remain in South Bay during the coming season. Mr. Denton reports a delightful trip, but says they found it hot and dry everywhere and "hard times" universally.

Blaise May Willis has just returned from Valdosta, Georgia, where she has been visiting her grandmother.

Mr. and Mrs. Roy Layfield and daughter Dorothy of Lake Harbor are visiting relatives in Lake City. Mrs. Morris, Jeannette and L. C. Gollatz of Lake Harbor left there for Chicago recently for a two month's vacation.

J. S. Scogin's brother and his daughter Billie went to Tarpon Springs on Sunday to spend a few days.

Mrs. G. M. Lockmiller recently returned home from an extended visit in the northern part of the state.

M. White and family who have been running the White Cafe in Clewiston have moved to Panama City, Fla., where they will be in charge of the cafe.

Mrs. Hope, sister of Mrs. C. W. Grogan and well known in this vicinity, was the victim with her husband of an auto accident in Washington, D. C., recently. One of the tires blew out causing the car to turn over, injuring both Mr. and Mrs. Hope seriously.

Mr. and Mrs. Ferman, Grace and Beatrice, Mary Denton and

BELLE GLADE

The picnic held at Fishing Creek, Sunday under the auspices of Belle Glade Post of the American Legion was marked by a good attendance from all parts of the lake country. While the idea of giving a picnic for the children of this section originated with Belle Glade's Everglades Post No. 20, the other posts around the lake were invited to cooperate and responded in a fine way. Fishing Creek furnishes an ideal place for such a gathering, with ample shade and beautiful scenery. A base ball game between Clewiston and Belle Glade resulted in victory for Clewiston. Plenty of eats and ideal weather contributed to the pleasure of the day.

Mr. and Mrs. Lawrence E. Will and daughter Barbara left early Sunday for a visit with Mrs. Will's parents in Ashland City, Tenn. They will visit Mr. Myers, Tampa on the way to the coast.

MAKE PARSONAGE REVENUE SOURCE

SOUTH BAY, Aug. 18.—Frank Willis expects to start the work of stuccoing the exterior of the parsonage on Monday. With the aid of four or five volunteer helpers he will be able to finish the job in about a week. The stuccoing of the parsonage will be a big job, but it is expected that the helpers will also donate their time in order that work may be finished as rapidly and as cheaply as possible. The parsonage when finished will be rented and be a source of income for the South Bay budget.

Joe Lockmiller is busy this week beautifying his end of town by cutting the weeds and clearing a number of vacant lots in the immediate vicinity of his home.

The marriage of L. S. ("Red") Bland and Miss Maud Jones, both of West Palm Beach, at Stuart on Saturday night was of interest in this community as Mr. Bland is the Everglades Coco Cola salesman and well known to many local residents, who wish him all kinds of happiness in his venture on the high seas of matrimony.
